(d) *Bedroom size adjustments.* (1) For most areas the ratios developed from the most recent decennial Census are applied to the two-bedroom FMR estimates to derive FMRs for other bedroom sizes. Exceptions to this procedure may be made for areas with local bedroom intervals below an acceptable range. To help the largest most difficult to house families find units, higher ratios than the actual market ratios may be used for three-bedroom and larger-size units.

HUD accepts public comments requesting revision of the proposed manufactured home spaces FMRs for areas where space rentals are thought to differ from 40 percent of the FMR for a two-bedroom unit. To be considered for approval, the comments must contain statistically valid survey data that show the 40th percentile manufactured home space rent (including the cost of utilities for the manufactured home) for the FMR area. Once approved, the revised manufactured home space FMRs establish new base-year estimates that will be updated annually using the same data used to update the FMRs.
